REPORT A BUG

Good details get bugs fixed fast. Attach the output of:

`cat /etc/os-release`
Which release and version you run.

`inxi -Fxz`
Hardware summary, private data masked.

`journalctl -b -p err`
Errors from the current boot.

`rpm -q <package>`
Exact version of the broken package.

bugzilla.opensuse.org

FIX A PACKAGE

Your first contribution, in five steps with osc:

`osc branch <project> <pkg>`
Make your own copy on OBS.

`osc checkout home:<you>…`
Download it to edit locally.

`osc build`
Test-build in a clean chroot.

`osc commit`
Push your change back to OBS.

`osc submitrequest`
Ask maintainers to merge it.
