openSUSE for servers

One family. Every workload.

Same packages, same tools, same build system — choose the cadence each machine needs.

Leap
Production. Long, predictable support.

MicroOS
Immutable container & Kubernetes hosts.

Tumbleweed
Newest kernels and hardware support.

Slowroll
Rolling, with fewer, larger updates.

Kalpa
The immutable admin workstation.

Btrfs snapshots · Cockpit · Salt & Ansible · path to SUSE Linux Enterprise
